**Subject:** Forex Margins

---

CFTC,

I understand that there is some consideration to go a 10 to 1 margin for FOREX and I “implore” you do NOT do this. This would hurt many more people than to help them. All the small investors, and I would be one of them, would be at a disadvantage. Let’s do something to help the regular guy and not hurt us. Again, please “**do not change**” the FOREX margin.

Thank you.

Brian Johnson
